### Project Information

United House Solutions Ltd., provides a bespoke funding and structuring service for social housing and public sector clients. Acting as lead arranger and equity provider, United House Solutions creates effective and innovative financial solutions & investment for projects as diverse as housing PFI to wholly revenue based central heating schemes.

Working in consortia under the Partners brand, United House have been uniquely short-listed on every project we have chosen to pursue. Their expertise and commitment has been recognised by the Office of the Deputy Prime Minister who have invited United House to be represented on the Practitioner Group established to deliver workable solutions to the unique challenges faced by Social Housing PFI.

Caswell Environmental Services have played an important role in facilitating United House with their asbestos obligations, liaising with tenants and maintaining an emergency response services throughout the year.
